THE BABYLON BETAR

Hey, look! Turns out, Sloan and Joel Berry (The Babylon Bee) are on the same team working together too! How neat! Boy, talk about yet ANOTHER key unmasking that PERFECTLY connects all these long-suspected TREASONOUS dots for us.

They're all working for the traitorous COVID BIOTERRORISTS, FINANCIAL FRAUDSTERS and INTELLIGENTSIA fgts from the WORLD ECONOMIC FORUM (WEF) who serve ONLY ISRAELI/GLOBAL JEWRY INTERESTS at the grave expense of AMERICA and our NATIONAL SECURITY.

This kinda reminds me of when Sloan unmasked herself with @DataRepublican, @LauraLoomer, @ConceptualJames and @Betar_USA (Likud/Jabotinsky/Kahane).

NOTE: @Betar_USA, where Sloan Rachmuth works, is led by Ronn Torossian, a KNOWN member of JEW TERROR ORGANIZATION KAHANE CHAI (JEWISH DEFENSE LEAGUE).

*BETAR shares its HEADQUARTERS w/LIKUD.

Your opinions can be disregarded. Because it's not an "I don't have enough information yet" problem so much as it's an "I'm a lying fucking cunt and on their payroll" problem.

Israeli startup
In 2015, the Israeli newspaper Haaretz reported that Epstein invested in the startup Reporty Homeland Security (rebranded as Carbyne in 2018). The startup was connected with Israel's defense industry. It was headed by former Israeli Prime Minister Ehud Barak, who was also at one time the defense minister, and chief of staff of the Israeli Defense Forces (IDF). The CEO of the company is Amir Elihai, a special forces officer, and Pinchas Bukhris, a director of the company and former defense ministry director general and commander of IDF cyber unit 8200.[77] Epstein and Barak, the head of Carbyne, were close, and Epstein often offered him lodging at one of his apartment units at 301 East 66th Street in Manhattan.[78][79] Epstein had past experience with Israel's research and military sector.[80] In April 2008, he went to Israel and met with a number of research scientists and visited different Israeli military bases.[80]

@SloanRachmuth, you must be confused.

I just Noticed™ you name-dropping "Project Lotus X" at one of my internet friends, Patrick Bishop, whom you say "will be first on the list" and that you'll "see him soon".

Yeah, that ain't gonna fucking work for me. In fact, it appears you're still a tad clueless about what time it is in America right now. Please afford me this chance to remind you.

Don't EVER threaten MY friends, you Betar/ZOA/Likud/Kahane terrorist lunatic. Unless you, Guy, Amit, Loomer, and your Betar/Kahane Chai handler Ronn Torossian are ready to make something of it in person irl.

Pick a place. Pick a date. Pick a time. Or STFU.

Your days of sitting behind a computer screen, (ILLEGALLY) SPYING ON NON-JEW AMERICANS with Israeli Mossad and the Israeli Ministry of Strategic Affairs, while shitposting ominous, not-so-thinly-veiled THREATS about 'ENDING ANTISEMITES' & 'HUNTING DOWN AND KILLING WHITE NON-JEW AMERICANS' behind your clever 'AnTiSeMiTeS' monikers (like you did with Kirk before your ZOA friends took HIM out), are over. Done. You're retired. You don't get to talk shit to

(Thanks for the lovely bday present.)

And that really changes things. Because NOW, we know you're one of Ben-Gvir's many psychotic Kahane Chai (JDL)/Betar (Likud)/Otzma Yehudit terrorists currently living on American soil, engaging in acts of violence, terrorism and espionage, and posing an active threat to the lives, liberties & properties of millions of American citizens.

PS: Yo, @RealCandaceO! Remember how I mentioned Epirus and Northrop Grumman (and the 'PayPalantir Mafia') two days ago, to add context to the brief Ericsson convo you were having with my guy @Vltra_MK?

Yeah... about that. 👇

Done. You're retired. Grow some fucking stones, Likunt. In fact, maybe we should look at revoking Guy's access to our DoD/GSA entirely. Hell, maybe we do the same for everybody else at IQVIA too. Perhaps we'll even throw in new 9/11 and Boston Marathon bombing investigations while we're at it. For funsies and whatnot.

(Let Josh Hammer know he's retired too. He won't be 'neutralizing' a god damned thing.)

You see, Sloan, I already HATED you before tonight, bc I know who/what you REALLY are. And I know the terrible things you and your ZOA/BETAR/KAHANE/LIKUD cronies have done to tens of thousands of innocent and unsuspecting AMERICAN CITIZENS, to advance your deranged, maniacal Zio aims.

But then an hour ago, I learned you actually WORK DIRECTLY WITH JDL/KAHANE CHAI TERRORISTS LIKE TOROSSIAN AT BETAR.

No, the Ericsson that my buddy Michael is referring to is basically the world telecoms control apparatus of Jacob and Marcus Wallenberg (Investor AB, EQT, Saab, Atlantic Council). It controls much of America's 9-1-1 call center routing.

And unfortunately, Ericsson is VERY interwoven with both Verizon AND Palantir.

Up until just last week, VERIZON was led by:

*HANS VESTBERG, Chairman
(former Ericsson CEO)

*DAN SCHULMAN, CEO
(former PayPal CEO)

Palantir Co-Founder & fmr Director of Operations, Alexander Moore, also Co-Founded NodePrime, and served as COO until Ericsson acquired NodePrime in 2016.

These days, the 'PayPalantir Mafia' bros hangout at Epirus with their L3Harris Technologies, Northrop Grumman (IBM) and Booz Allen Hamilton buddies, where they can hack into literally any device on the planet, re-route 9-1-1 emergency calls at will, manipulate spy satellite telemetry and control UAV surveillance/attack drones.

We should probably discuss all of this nonsense in further detail soon. Let's bring @Villagecrazylady2 too. She's awesome. 🙏😎

Speaking of EPIRUS and NORTHROP GRUMMAN, they're partnered on COUNTER UNMANNED AERIAL SYSTEMS (C-UAS), where NORTHROP augments its C-UAS arsenal with EPIRUS'S C-UAS "LEONIDAS" ELECTROMAGNETIC PULSE (EMP) system.

Hey, check out the date on this article, where EPIRUS announced the successful testing of its LEONIDAS HIGH-POWER MICROWAVE (HPM) "DRONE SWARM DEFENSE" TECHNOLOGY, 'NEUTRALIZING' ALL 61 OF THE 61 DRONES FACED, including a 49-DRONE SWARM with A SINGLE EMP PULSE, under LIVE-FIRE CONDITIONS.

Epirus' Leonidas High-Power Microwave Defeats 49-Drone Swarm, 100% of Drones Flown at Live-Fire Demonstration

PRESS RELEASE - SEPTEMBER 10, 2025 SHARE

> Leonidas neutralized 61-of-61 drones, culminating in a 49-drone swarm kill with one pulse of electromagnetic interference

Los Angeles, Calif—September 10, 2025—Epirus announced today the results of an August 26 demonstration of the company's Leonidas high-power microwave (HPM) system that delivers weaponized electromagnetic interference to counter swarms of robotic, asymmetric threats.

The live-fire demonstration tested Leonidas against 61 drones across five operationally relevant flight scenarios. Leonidas' suite of capability differentiators was on full display as the system disabled 61-of-61 drones—a 100% success rate. The event was capped off by the defeat of a 49-drone swarm consisting of two threat representative drone types all with one instant and low-collateral pulse of high-energy electromagnetic interference.

Northrop Grumman Taps Epirus For Electromagnetic Pulse C-UAS Weapon System

PRESS RELEASE - JUL 20 2020 SHARE

MCLEAN, Va. – July 20, 2020 – Northrop Grumman Corporation (NYSE: NOC) has formed a strategic supplier agreement with Epirus, Inc. to offer the company's Electromagnetic Pulse (EMP) capability as a component of Northrop Grumman's Counter-Unmanned Aerial System (C-UAS) systems-of-systems solution offering. MCLEAN, Va. – July 20, 2020 – Northrop Grumman Corporation (NYSE: NOC) has formed a strategic supplier agreement with Epirus, Inc. to offer the company's Electromagnetic Pulse (EMP) capability as a component of Northrop Grumman's Counter-Unmanned Aerial System (C-UAS) systems-of-systems solution offering. The agreement augments Northrop Grumman's advanced end-to-end C-UAS capabilities by including Epirus' EMP systems to defeat UAS swarms, and specifically supplements the company's suite of non-kinetic C-UAS effects.

"UAS threats are proliferating across the modern battlespace," said Kenn Todorov, vice president and general manager, combat systems and mission readiness, Northrop Grumman. "By integrating the Epirus EMP weapon system into our C-UAS portfolio, we continue maturing our robust, integrated, layered approach to addressing and defeating these evolving threats."

Northrop Grumman's end-to-end C-UAS solutions deliver a layered architecture with a full complement of kinetic and non-kinetic effects, aerial and ground sensors and the battle-hardened, proven and deployed Forward Area Air Defense Command and Control (C2) system, recently selected by the U.S. Army as the interim C2 system for counter-small-UAS capabilities.

Epirus' C-UAS EMP system — called Leonidas — is designed for static and mobile C-UAS defense and utilizes solid-state commercial semiconductor technology to deliver capability with unprecedented reduction in size and weight. This enables increased stand-off ranges and speed-of-light engagements that do not suffer from issues with magazine depth and capacity. When fired, a Leonidas creates an EMP that can be steered for precision engagements, or adjusted to sanitize a volume of terrain or sky, creating a force field effect.

"We're excited to work closely with the Northrop Grumman team to support their C-UAS systems-of-systems solution offering," said Bo Marr, chief technology officer at Epirus. "Our unprecedented EMP capabilities will complement this offering as we continue to look to the future to understand how asymmetric threats will evolve."

ABOUT EPIRUS

Epirus Inc. is a third-year startup that develops EMP weapons for the U.S. military. Their team combines veteran experience from aerospace and the Special Operations community. Their offices are located in Los Angeles, California.
